"BAILEY" ADJUSTABLE PLANES

STANLEY RULE & LEVEL CO.

New Britain, Conn., U. S. A.

SOLE MANUFACTURERS

New York Office - - - 107 Chambers Street

Sold by all Hardware Dealers ®

Plumbs and Levels

WITH GROUND GLASSES.

We offer these Levels as the highest type of Level which has ever been placed before a mechanic. The increased demand for a Level of the highest grade originally induced us to manufacture this line, and their sale has far exceeded our expectations.

	Each.
No. 60. Mahogany Plumb and Level, Square Top Plate, Two Brass Lipped Side Views, with Ground Glasses, 24 to 30 inch.....	\$2 90
No. 90. Mahogany Plumb and Level, Square Top Plate, Two Brass Lipped Side Views, Tipped, with Ground Glasses, 24 to 30 inches.....	3 25
No. 95. Brass Bound, Mahogany Plumb and Level, Two Brass Lipped Side Views, with Ground Glasses, 24 to 30 inch.....	6 00
No. 96. Brass Bound, Rosewood Plumb and Level, Two Brass Lipped Side Views, with Ground Glasses, 24 to 30 inch.....	6 65

No. 98.

No. 98. Brass Bound, Rosewood Plumb and Level, Two Brass Lipped Side Views, with Ground Glasses,				
Length,	6	9	12	18 inch.
Each,	\$2 15	2 65	3 15	4 15

Length,	6	9	12	18 24 inch.
Each,	\$2 00	2 50	3 00	3 50 4 00

Either of above will be furnished with groove cut in bottom (for working shafting, etc.) if so ordered, without extra charge.

"BED ROCK" Planes.

A NEW STYLE OF IRON BENCH PLANE.

The perfected design of this Plane allows a combination of the utmost solidity, with more adjustments than any Bench Plane ever produced.

Both surfaces of the Frog are machined, and the bottom surface is in contact with the machined surface of the Plane body, thus giving the Cutting Iron as solid a bed as though resting on the Plane body itself.

A Tongue is made on the bottom side of the Frog, and a corresponding groove is formed in the Plane body, overcoming any possibility of shifting or "wobbling" of the Frog.

"BED ROCK" Planes.

When it is desired to open or close the mouth, it can be easily done by turning the screw shown at the back of the Frog. The Tongue and groove mentioned insures that the Frog moves at a true right angle with the mouth.

These new features will commend themselves to all who use Planes.

Ask your dealer to show you one of these tools, which you will know by the Cap.

"BED ROCK" Planes.

NO.		EACH
602	Smooth, 7 inches in Length, $1\frac{5}{8}$ inch Cutter.....	\$2 15
603	Smooth, 8 inches in Length, $1\frac{3}{4}$ inch Cutter.....	2 30
604	Smooth, 9 inches in Length, 2 inch Cutter.....	2 50
604½	Smooth, 10 inches in Length, $2\frac{3}{8}$ inch Cutter.....	2 90

8B	Adjusting Nut.	26B	Adjustable Frog.
9B	Lateral Adjustment.	28B	Adjusting Screw.
		46B	Bottom.

The numbers in above list refer to the cut on opposite page.

In ordering parts for any Plane, give the number and name as given in the list and also the number of the Plane for which the parts are required.

The collection of parts marked A consists of the No. 6 Frog, No. 7 "Y" Adjustment, No. 8 Brass Adjusting Nut and No. 9 Lateral Adjustment. These parts we term "Frog Complete" and if a "Frog Complete" is ordered, the parts are always put together before shipment from our factory.

Many of our Special Planes, *i. e.*, No. 113 Circular and No. 12 Scraper, etc., have some of the same parts as the Regular Line of Bailey Planes, and this list therefore, in many cases, will apply for ordering parts for Special Planes.

Prices of Plane Irons.

	1¼	1½	1¾	2	2⅛	2¼	2½	2⅝

Orders for Plane Irons should designate number of the Plane for which they are wanted.

Parts of Bailey Planes.

Stanley Adjustable Circular Plane.

This Plane has a flexible steel face, which can be easily shaped to any required arc, either concave or convex, by turning the Knob on the front of the Plane.

Each.

No. 113. Adjustable Circular, $1\frac{3}{4}$ inch Cutter..... \$2 75

Improved Victor Circular Plane.

The Flexible Steel Face of this Plane can be made concave, or convex, by turning the screw which is attached to its center.

No. 20 $\frac{1}{2}$. Adjustable Circular Plane, $1\frac{3}{4}$ inch Cutter, \$3 15

No. 20. Circular Plane, Nickel-plated, $1\frac{3}{4}$ inch Cutter, 3 75

Stanley Cornering Tool.

For Pattern Makers, and used by all Wood-Workers in rounding sharp edges. The Tool is made in two numbers, with a different size Cutter at each end, so sharpened that owner can always cut with the grain without changing position of the work.

It requires no depth gauge, as the form of the tool allows it to cut only to a certain depth.

Each.

No. 28. 1-16 and $\frac{1}{8}$ inches each, Flat Steel..... \$0 40

No. 29. $\frac{1}{4}$ and $\frac{3}{8}$ inches each, Flat Steel..... 40

Stanley Carriage Makers' Rabbet Plane.

Each.

- No. 10½. Carriage Makers' Rabbet, 9 in., 2⅞ in. Cutter, \$2 50
 No. 10. Carriage Makers' Rabbet, 13 in., 2⅞ in. Cutter, 3.00
 With Corrugated Bottoms if so ordered, at same price.

Stanley Improved Scrub Plane.

This Tool has a single Iron, with the cutting edge rounded. It is particularly adapted for roughing down work before using a Jack or other Plane.

- Each.
 No. 40. Iron Stock, 9½ inches in Length, 1¼ in. Cutter, \$1 00
 No. 40½. Iron Stock, 10½ inches in Length, 1½ in. Cutter, 1 35

Adjustable Scraper Plane.

This Tool is used for scraping and finishing Veneers or Cabinet work. It can be used equally well as a Tooth Plane; and will do excellent work in scraping off old paint and glue.

- Each.
 No. 112. Adjustable Scraper, 9 in., 3 in. Cutter..... \$2 00
 CUTTERS, for Veneer Scraping..... 20
 CUTTERS, for Tothing, Nos. 22, 28, 32 (22, 28 or 32 teeth per in.) 30

Improved Rabbet Plane.

This Plane will lie perfectly flat on either side and can be used with right or left hand equally well, while planing into corners or up against perpendicular surfaces.

- | | Each. |

Stanley Patent Universal Plane.

This Tool, in the hands of an ordinary carpenter, can be used for all lines of work covered by a full assortment of so-called Fancy Planes.

Each, \$16 00

Fence D has a lateral adjustment by means of a screw, for extra fine work. The Fences can be used on either side of the Plane, and the rosewood guides can be tilted to any desired angle, up to 45 degrees, by loosening screws on face. Fence H can be reversed for Center Beading wide boards, when necessary.

No. 55. Stanley's Universal Plane, 52 Tools, Bits, etc. Each, \$16 00

The Plane is nickel-plated; the 52 Cutters are arranged in four separate cases; and the entire outfit is packed in a neat Wooden Box.

Improved Dado Planes.

The Cutter is set on a skew. Plane is fitted with a Depth Gauge, adjustable by means of a Thumb Screw. Also with two adjustable Spurs, which can be adjusted to take up wear as well as for depth of cut.

Each.

Cutters for above Planes, (¼ or ½ in.)	30

Stanley Universal Spoke Shaves.

Each.

No. 67. Universal Spoke Shave, for curved or straight work \$1 50

Both Handles are detachable, and either of them can be screwed into a socket on top of the stock, thus enabling the owner to work into corners, or panels, as no other spoke shave can do.

This Spoke Shave has two detachable bottoms, adapting it equally well to circular work or straight; and, by means of a movable width gauge the tool can be used for rabbeting.

Stanley Improved Butt Gauge.

A Metallic Butt Gauge, having one bar with two steel cutters fixed upon it. When the cutter at the outer end of this bar is set for gauging on the edge of the door, the cutter at the inner end of the bar is already set for gauging from the back of the jamb. The other bar has a steel cutter to accurately gauge for the thickness of the butt.

The form of this Tool is convenient for carrying in the pocket. It is so constructed that the bars cannot fall out of the stock.

No. 95. Nickel-plated Butt Gauge.....\$0.75

Improved Marking and Mortise Gauge.

No. 91.

This Gauge is made of metal, and has two graduated bars. The steel points are attached very near the ends of the bars, admit of being used close up into a rabbet, or corner. Each.

No. 90. Nickel-plated Marking Gauge.....\$0.75

No. 91. Nickel-plated Marking and Mortise Gauge..... .65
